

OLD BEFORE NEW

Thought Exercise

You are a passenger on an airplane flight into Chicago and need to transfer to Flight 16 to Memphis. As you descend into Chicago, the flight attendant announces transfer gates. Which of the following formats is easier for you to process?

Option A

| | |
|----------|----------------------|
| Gate C12 | Flight 29 to Atlanta |
| Gate C25 | Flight 35 to Dallas |
| Gate B20 | Flight 16 to Memphis |

Option B

| | |
|-------------------------|----------|
| To Atlanta on Flight 29 | Gate C12 |
| To Dallas on Flight 35 | Gate C25 |
| To Memphis on Flight 16 | Gate B20 |

FORECASTING AND FULFILLMENT

Read the following paragraph. What do you think about it?

First, you arrange items into different groups. Of course, one pile may be sufficient depending on how much there is to do. If you have to go somewhere else due to lack of facilities, that is the next step; otherwise, you are pretty well set. Next, you operate the machines according to the instructions. After the procedure is completed, one arranges the items into different groups again. Then, they can be put in their appropriate places. Eventually, they will be used once more and the whole cycle will have to be repeated. However, this process is the essence of life in general.

The procedure for washing clothes is actually quite simple.

The procedure for washing clothes is actually quite simple. First, you arrange items into different groups. Of course, one pile may be sufficient depending on how much there is to do. If you have to go somewhere else due to lack of facilities, that is the next step; otherwise, you are pretty well set. Next, you operate the machines according to the instructions. After the procedure is completed, one arranges the items into different groups again. Then, they can be put in their appropriate places. Eventually, they will be used once more and the whole cycle will have to be repeated. However, this process is the essence of life in general.

First, you arrange items into different groups. Of course, one pile may be sufficient depending on how much there is to do. If you have to go somewhere else due to lack of facilities, that is the next step; otherwise, you are pretty well set. Next, you operate the machines according to the instructions. After the procedure is completed, one arranges the items into different groups again. Then, they can be put in their appropriate places. Eventually, they will be used once more and the whole cycle will have to be repeated. However, this process is the essence of life in general. As you can see, **the procedure for washing clothes is actually quite simple.**
